

HOW TO IDENTIFY THE CORRECT FILTRATION SOLUTION

Steam equipment is made by various manufacturers and come in different shapes and sizes. Everpure has simplified the process of designing the right solution in three easy steps!

1

Determine the type of steam equipment

There are only two types of steam equipment

Boiler-Based Steam Equipment

Boiler-based steam equipment will have a basin of water that is within the equipment

Boiler-Less / Spritzer / Flasher Steam Equipment

Boiler-less steam equipment dispenses water onto a heated surface to generate steam

OR

2

Estimate the size of the equipment

Number of trays / pans give you the size of the equipment

Steam equipment can be based on the **number of pans or racks** that an oven has

Some ovens are stacked on top of each other, so remember to count both

3

Analyze your customer's water

Water quality plays a significant role in designing a steam filtration solution.

- (A) Call us at 800.942.1153 to **receive local water information**
- (B) Order our Express **H2O Water Analysis Test Kit**
- (C) If you can't wait, we **recommend EZ-RO** as another solution

SELECT FROM THE PRODUCTS LISTED ON THE BACK OF THIS PAGE

EVERPURE® MAKES PRODUCT SELECTION EASY

Steam Equipment Type	Water Quality	Size of Steamer/ Combi Oven	Recommended Product	
Boiler-Based	N/A	< 6 pans		Kleensteam CT (EV9797-50)
		> 6 pans		Kleensteam II Single / Twin (EV9797-21 / EV9797-22)
Boiler-Less / Spritzer / Flasher	Good water	All sizes		Kleensteam II Twin w/o feeder (EV9797-40)
	Problem water (high TDS, hard minerals, high chlorides)	< 10 pans		EZ-RO 200/10G (EV9975-53)
		> 10 pans		EZ-RO 375/16G (EV9975-58)
		Two or more ovens (Stacked)		EZ-RO 375/50ATM (EV9975-69)
We offer specialized solutions for extreme water issues, such as the QT product series designed for high chloramine levels. For a consultation, please call our Tech services at 800-942-1153.				

GET YOUR WATER TESTED TODAY AND FILTER SMARTER!

The H₂O Express Water Test Kit helps you choose the best Pentair Everpure solution for your equipment based on the condition of your water.

- ✓ Order your test kit
- ✓ Send in your sample
- ✓ Fast, lab certified results in 5 Days
- ✓ Receive detailed report and custom solutions

REQUEST A TEST TODAY!

If you know your equipment's make and model, visit pentair.com/steam to view our Oven Selection Guide.
